Docket CU-4238

15, 2008 are a part of the translated copies of the Priority Documents (Korean Patent Application No. 10-2002-00080066 and Korean Patent Application No. 10-2003-0014486) for purposes of antedating a prior art reference cited by the examiner in the office action. With this clarification, the applicants respectfully submit that there remain no issues as to the non-compliant amendment, and as such the applicants respectfully request withdrawal of the Notice of Non-Compliant Amendment at least for the reasons above.

Additionally, upon reviewing PAIR, it appears that there are multiple instances of the specification, claims, and drawings having been entered in the prosecution history of the present application. The applicants would like to bring this to the examiner's attention so that any submitted priority documents are **not** mistaken for substitute specifications and/or drawings for the present application.

No fee is believed to be required with this reply, but, if this is not the case, please charge the requisite fee (or credit any overpayment) to Deposit Account No. 12-0400.

Should the examiner have any remaining questions or concerns, the examiner is encouraged to contact the undersigned attorney by telephone to expeditiously resolve such concerns.

Respectfully submitted,

Dated: November 26, 2008
